PALLET AND PALING PLAYHOUSE

Mark Rayner creates a fun children's playhouse using discarded wood.

YOU WILL NEED:

- 20mm flathead galvanised nails
- 50mm flathead galvanised nails
- 75mm galvanised nails
- 4 x wooden pallets
- Plywood pallet
- 10 x 1.2m fence palings
- Hammer
- Paintbrush
- Resene paint stirrer
- Resene Waterborne Woodsman tinted to Resene Totem Pole
- Sandpaper (coarse)
- Saw
- Scissors
- 2 x tea towels

the paint the professionals use

For more on paints phone 0800 RESENE (0800 737 363) or visit your Resene ColorShop or www.resene.co.nz

STEP ONE

Place the plywood pallet in position, as shown. If positioning on bare soil or lawn, ensure the pallet is stable and level.

STEP TWO

Fix two pallets in position to form two adjacent walls, as shown, using 50mm and 75mm nails.

STEP THREE

Partly deconstruct a pallet to form a wall with two windows and fix this into position using 50mm and 75mm nails.

STEP FOUR

Cut a pallet in half, as shown.

STEP FIVE

Fix this half pallet in position, as shown, fixing with 50mm and 75mm nails.

STEP SIX

Fix two fence palings along the top edges of the 'window' wall and 'door' wall using 50mm nails. (Cut palings to fit, if necessary.)

STEP SEVEN

Fix the eight remaining fence palings in position using 50mm nails to form the roof.

STEP EIGHT

Sand any rough edges with coarse sandpaper.

STEP NINE

Carefully stir the Resene Waterborne Woodman before applying two coats to the playhouse, allowing two hours for each coat to dry.

STEP TEN

Fix the two tea towels in position, as shown, using 20mm flat head nails. Cut up the centre of each with scissors and tie back to form curtains.
