Resene

Concrete pad

★★☆ **Difficulty level** ★easy ★★moderate ★★★challenging

Weekend DIY with Mark Rayner – 70

You will need:

- Bucket with clean water
- Concrete pad or patio
- Garden hose with clean running water
- Large paintbrush
- Mineral turps
- Paint stirrer

- Resene Moss & Mould Killer
- Resene paint pot
- Resene Sureseal
- Resene Walk-on flooring and paving paint tinted to Resene Fahrenheit
- Rubber gloves
- Stiff bristled brush

Step 1
Mix one part Resene Moss & Mould Killer to five parts clean water.

Step 2
Brush onto the concrete and leave for 24 hours.

Step 3
Rinse the concrete thoroughly with clean water and allow to dry.

Step 4
Carefully stir the Resene Sureseal.

Step 5
Apply one coat of Resene Sureseal to the concrete and allow to dry.

Step 6
Clean brush in mineral turps.

Step 7
Carefully stir the Resene Walk-on flooring and paving paint tinted to Resene Fahrenheit.

Step 8
Apply two coats of Resene Walk-on flooring and paving paint tinted to Resene Fahrenheit to the concrete allowing two hours for each coat to dry.

Transform a dull concrete pad into an attractive seating area with a little bit of help from Resene.

To get the look:
Mark painted the background shed door with Resene Lustacryl tinted to Resene Catalyst.

Other ideas:
For a soft green look paint the concrete with Resene Walk-on flooring and paving paint tinted to Resene Coriander.
