

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Weekend DIY with Mark Rayner – 71

You will need:

- Clean cloths
- Karen Walker Chalk Colour paint tinted to Resene Clementine Orange
- Karen Walker Vintage Wax
- New terracotta pot
- Paint stirrer
- Paintbrush
- Resene Aquapel & Terracotta Sealer
- Rubber gloves

Step 1
Wipe the terracotta pot with a cloth to remove any surface dust.

Step 2
Apply one coat of Resene Aquapel & Terracotta Sealer to the terracotta pot inside and out and allow to dry.

Step 3
Carefully stir the Karen Walker Chalk Colour paint tinted to Resene Clementine Orange.

Step 4
Turn the terracotta pot upside down and paint the outside with one coat of Karen Walker Chalk Colour paint tinted to Resene Clementine Orange. Allow to dry.

Step 5
Apply a second coat of Karen Walker Chalk Colour paint tinted to Resene Clementine Orange to the outside of the pot. Allow to dry.

Step 6
Turn the terracotta pot the right way up and paint the inner and outer rim with one coat of Karen Walker Chalk Colour paint tinted to Resene Clementine Orange. Allow to dry.

Step 7
Apply a second coat of Karen Walker Chalk Colour paint tinted to Resene Clementine Orange to the inner and outer rim. Allow to dry.

Step 8
Wearing rubber gloves apply a little Karen Walker Vintage Wax to the painted surface of the pot, wiping off any excess with a clean cloth. Allow wax to dry.

It's easy to age a brand new terracotta pot using Resene Karen Walker Chalk Colour and Vintage Wax.

To get the look: Mark decorated the shelf with Karen Walker Chalk Colour tinted to Resene Blanched Pink and Karen Walker Vintage Wax.

Other ideas: For a rich metallic rust effect use Resene FX Faux Rust Effect Activator over two coats of Resene FX Faux Rust Effect Basecoat.
