

### You will need:

- Damp sponge
- Paintbrush
- Plastic picture frame
- Resene Aquaclear gloss
- Resene Smooth Surface Sealer
- Resene testpots of Resene Allusive and Resene Gull Grey
- Sandpaper
- Small wooden stirrer

**Step one**  
Remove the glass and backing from the picture frame.

**Step two**  
Lightly sand the plastic frame to 'key' the surface.

**Step three**  
Wipe off any sanding residue with a damp sponge.

**Step four**  
Apply one coat of Resene Smooth Surface Sealer to the frame and allow two hours to dry.

**Step five**  
Apply one coat of Resene Gull Grey to the frame and allow two hours to dry.

**Step six**  
Carefully stir the testpot of Resene Allusive.

**Step seven**  
Apply two coats of Resene Allusive to the frame, allowing two hours for each coat to dry.

**Step eight**  
Apply two coats of Resene Aquaclear gloss to the frame, allowing two hours for each coat to dry.

Transform a humble plastic picture frame into a stylish retro feature with a little bit of help from Resene.

### To get the look:

Mark painted the background wall with Resene SpaceCote Flat tinted to Resene Aqua.

### Other ideas:

For a rich gold effect paint the frame with one coat of Resene Porsche and two coats of Resene Bullion.
