

Difficulty level ★★ easy ★★ moderate ★★ challenging

Resene kids art with Mark Rayner – 68

You will need:

- Green craft tinsel
- Mini terracotta plant pot
- Paintbrushes
- Piece of thin cardboard
- PVA glue
- Resene Art Action Quick Dry waterborne primer undercoat
- Resene Testpots of Resene Kermit, Resene Pohutukawa and Resene Volcano
- Scissors
- Sticky tape
- Toilet roll tube

Step one

Cut a half-circle from the cardboard and bend around to form a cone shape, as shown. Fix the back join with a piece of sticky tape.

Step two

Paint the toilet roll tube, cardboard cone and mini terracotta pot with one coat of Resene Art Action Quick Dry and allow to dry for two hours.

Step three

Paint the mini terracotta pot with two coats of Resene Pohutukawa, allowing two hours for each coat to dry.

Step four

Paint the toilet roll tube with two coats of Resene Volcano, allowing two hours for each coat to dry.

Step five

Paint the cardboard cone with two coats of Resene Kermit, allowing two hours for each coat to dry.

Step six

Wrap the green craft tinsel around the cone and fix at the back with a piece of sticky tape. Glue the toilet roll tube into the mini terracotta pot, and glue the cardboard cone onto the toilet roll tube. Let the glue dry – and have a Merry Christmas!

Make your very own mini Christmas tree ornament with a little bit of help from Resene.

Top tip:

If you don't have a mini terracotta pot, a plastic lid from an old aerosol spray can will do just as well.

Here's another idea:

This golden Christmas tree was painted with Resene Art Action Bullion and finished off with gold craft tinsel.
