

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 90

You will need:

- Ice block stick
- Old jam jar
- Paintbrush
- Red glitter
- Resene Art Action glaze (gloss)
- Resene Waterborne Smooth Surface Sealer
- Resene testpots of Resene Get Reddy and Resene So Cool
- Sandpaper

Step one

Wash and dry the jam jar thoroughly and then lightly sand the outside with sandpaper – this will help the paint to stick.

Step two

Apply one coat of Resene Waterborne Smooth Surface Sealer to the outside of the jar and allow two hours to dry.

Step three

Paint the outside of the jar with two coats of Resene Get Reddy, allowing two hours for each coat to dry.

Step four

Carefully dribble Resene So Cool down the side of the jar, as shown. Allow at least two hours for paint to dry.

Step five

Pour the red glitter into the Resene Art Action Glaze and carefully stir with an ice block stick.

Step six

Paint the outside of the jar with two coats of the glitter mix, allowing two hours for each coat to dry. How cool!

Top tip:

You might need to pour a little of the Resene Art Action Glaze into another pot if there's not enough space to add and mix the glitter.

Here's another idea:

This cool plastic bottle vase was painted with Resene Endorphin and dribbles of Resene Chaos, Resene Dizzy Lizzy and Resene Art Action glaze mixed with red glitter.
