HALF
the time

with **RESENE**
HI-GLO
LATEX HOUSE PAINT
(water thinned)

Recommended for weatherboard houses and all exterior surfaces. Resene Hi-Glo is made by the manufacturer of "Resene", the tested latex paint that has been in use for over 11 years. Resene Hi-Glo is a new paint that gives all the advantages of latex paints PLUS a new gloss finish.

Use only Hi-Glo undercoat.

Check this list of advantages:

1. QUICKEST PAINT SYSTEM YET DEvised.
2. A turps-based undercoat is NOT required. BRUSHES ARE CLEANED IN WATER.
3. FAST DRYING GLOSS.
4. UNDERCOAT AND FINISH COAT IN UNDER AN HOUR on old paint or new primed timber. ONE LIFT OF SCAFFOLD FOR BOTH COATS.
5. ONE PAINT for all wood, spoutings and concrete base.
6. STOP ANY TIME: lap marks won't show.
7. NOT AFFECTED by frost. START EARLIER - FINISH LATER.
8. NO DRAG; easy to apply with a 6 inch brush. **Ask for a colour card.**

RESENE HI-GLO supplements the favourites.
RESENE SATIN FINISH for use on all interior wall and ceiling surfaces.
RESENE SEMI GLOSS for interior use (where very high durability and a glossier finish are required) and for all exterior surfaces of concrete, stucco, brick, cement board etc.
RESENE SEMI GLOSS will waterproof porous surfaces and seal hair cracks in concrete and stucco.

Manufactured by **STIPPLECOTE PRODUCTS LTD.**
